The Power to Surprise

CARNIVAL  
**HI-LIMOUSINE**

Born again with the dignity and pride of HI-LIMOUSINE.

**Door spot lamp**

A HI-LIMOUSINE logo is projected on the road when front row doors are opened, conveying a premium image.

**Button-type power sliding doors**

Doors can be opened and closed using the smart key, the driver's overhead console switch or the 2nd row sliding door switches.

# Luxurious Interior

Optimal driver space utilization and high-tech features enhance everyone's comfort and pleasure.

CARNIVAL HI-LIMOUSINE 7-seater / Specifications may vary according to the vehicle class, seating capacity and options that are selected.

CARNIVAL HI-LIMOUSINE 7-seater / Specifications may vary according to the trim, seating capacity, engine and options that are selected.

LED door scuffs

LED overhead lamps

LED sun visor lamp

LED glove box Lamp

LED luggage lamp

**Front passenger walk-in device**  
 The driver can conveniently slide or incline the front passenger seat to facilitate access to the rear or front seats.

CARNIVAL HI-LIMOUSINE 7-seater

/ Specifications may vary according to the trim, seating capacity, engine and options that are selected.

**1 21.5" smart monitor (HD-DMB)**  
 HD-DMB broadcasts, photos, videos, and music can be enjoyed on a wide, 21.5" LCD monitor using HDMI and USB ports. (monitor is not touch sensitive)

**2 Wireless mirroring and Bluetooth**  
 Mobile phone mirroring/sharing and Bluetooth headphones can be used without cables for the convenience of 2nd and 3rd row passengers. (May not support connectivity of certain headsets and mobile devices)

**3 Integrated controller**  
 The monitor and mood lamps can be easily maneuvered through integrated controls on the armrest of the 2nd-row right side seat.

**4 2nd and 3rd row LED reading lamps**  
 Reading lamps on the sides of the high roof provide individual lighting to 2nd and 3rd row passengers (push-in, pull-out, redirection functions).

**5 1st and 2nd row heated and cooled cup holders**  
 2 cup holders in the front and 2 cup holders in the back of the console retain the temperature of cold or hot beverages for extended periods of time.

# Safety Driving

Safety systems have evolved to offer a new level of safe driving that includes prevention.

**Smart Cruise Control (SCC)\***  
 Helps the car maintain a preset speed and a preset distance from the car in front with an advanced system that uses the front camera and radar sensors. Automatically stops the car when the vehicle in front comes to a full stop and restarts easily with a simple gesture when the car in front begins to move.

**Lane Departure Warning (LDW)**  
 Tracks lanes with the front-view camera and alerts the driver if it detects an unintentional lane departure.

**Blind-Spot Collision Warning (BCW) / Rear Cross-traffic Collision Warning (RCCW)**  
 Detects and warns the driver about vehicles approaching from rear lateral blind spots or from the back to facilitate lane changes and prevent accidents while driving or backing out from a parking space.

**Forward Collision-Avoidance Assist (FCA, Cars/Pedestrians)\***  
 Alerts the driver and applies the brakes automatically if necessary to avert a collision and prevent driver injury and vehicular damage when the front-view camera and radar sense a danger of colliding with a car or pedestrian.

**High Beam Assist (HBA)**  
 The front-view camera keeps track of surrounding lights and headlamps from oncoming vehicles, switching between high beams and low beams automatically to facilitate night-time driving.

**Emergency Stop Signal (ESS)\***  
 Brake lights and emergency lights are automatically activated after sudden braking to alert drivers in the back of an emergency.

**6-airbag system\***  
 A driver's airbag, front airbag (smart airbags in the 1st row), 2-side airbags, and curtain airbags protect all passengers.

**Tire Pressure Monitoring System (TPMS)**  
 Sensors monitor the tires' air pressure and alert the driver if a tire needs to be inflated, indicating which tire's pressure is low.

**Surround View Monitor (SVM)**  
 4 cameras installed on the exterior of the vehicle keep an eye on all sides to facilitate and provide guidance while parking and driving in tight spaces.
