

RSA Service Coverage

Breakdowns

A warrantable breakdown of the vehicle that renders it un-drivable.

Coverage: Transportation services of up to 500 miles to the nearest Service Center are provided.

Flat Tire

Damage to the wheel or tire that causes flat or unsafe driving conditions.

Coverage: Flat tire services are provided for up to 50 miles when tire repair and/or replacement is completed through Tesla directly.

Lockouts

Circumstances where the vehicle cannot be unlocked normally due to vehicle, fob or app malfunction.

Coverage: A Roadside Professional will perform a lockout on your vehicle by creating a small opening between the door and vehicle frame in order to manually open your door.

Out of Range

When your battery charge is depleted and you can't make it to a charging station, or the vehicle has been unplugged for an extended period of time.

Coverage: We are able to assist you, but this is not a financially covered service. Contact Roadside Assistance to learn more or arrange a transport.

Additional Coverage

For all services not listed, we are still equipped and ready to assist you. Review our Roadside Assistance policy for service details and what you may need to provide payment for.
