

The new Carnival Hybrid

Movement that Inspires

A new era of People Movers.

Striving for a bolder, more majestic look, the latest model features the signature tiger-nose grille and intricate detailing. High-tech elements, including unique 4-cube projection vertical lamps integrated within the liner, enhancing its distinctive silhouette. Additionally, sophisticated starmap DRL graphics further accentuate its modern aesthetic.

Individual comfort for every single seat.

Featuring firm, inviting seats, generous headroom, and fine materials, the Carnival Hybrid ensures comfort for every passenger. From the seamless sliding of the doors to the customizable seat arrangements, the interior is meticulously designed to enhance the journey for all occupants.

Where first-class is in the 2nd row.

While the Carnival Hybrid boasts ample space, its second-row VIP lounge seats, part of the 7-seat setup, offer perhaps the most opulent rear-passenger experience on today's roads. Upholstered in premium, top-tier materials and treated to executive-class amenities, these seats also include heating and ventilation for added comfort.

Integrated Memory Seat (Driver only)

Allows personalized seating preferences to be stored and recalled at the touch of a button, enhancing driver comfort and convenience.

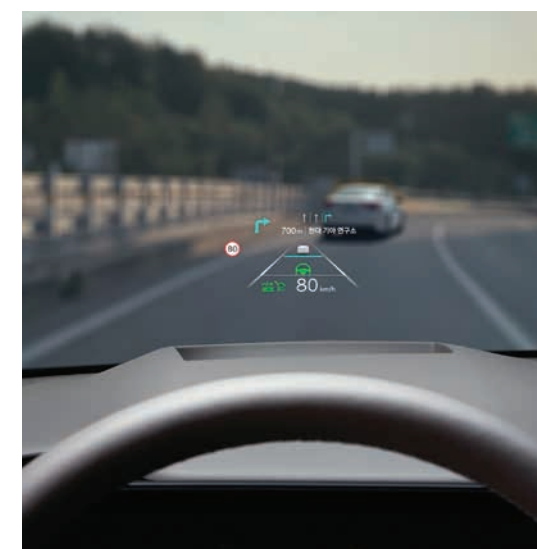

Ambient Mood Lighting

Customizable LED ambient lighting, creating the perfect atmosphere to match your mood and enhance your journey.

Comfort at your fingertips.

Picture yourself behind the wheel of a vehicle designed for your utmost comfort and control. With ergonomic seats that can be adjusted to your posture and preferences, every drive becomes a personalized experience. Intuitive controls allow you to fine-tune your seating position and settings effortlessly, ensuring optimal support and relaxation whether you're navigating city streets or cruising on the open road. Discover a new level of driving comfort where every journey is a testament to innovation.

Head-up Display projects vital driving information onto the lower part of the windshield, enhancing safety by allowing drivers to focus more on the road.

Explore with Confidence. Your Road. Your World.

Step into a world of connectivity with a panoramic instrument display that offers a panoramic view of vital driver information. Navigate effortlessly between navigation, entertainment, and vehicle settings via an intuitive touchscreen.

Integrated Display (12.3" Digital Driver Cluster + 12.3" Touchscreen Infotainment) allow drivers to choose audio sources, tune in to radio stations, and adjust audio quality to taste by using convenient controls on the steering wheel. With Android Auto™ & Apple CarPlay™, users can easily access their favorite apps displayed on the center touchscreen.

Narrative of security, written with all in mind.

With a keen eye on safety, the Kia Carnival Hybrid stands ready to protect both passengers and pedestrians alike. Harnessing a suite of Advanced Driver Assistance Systems (ADAS), Kia's technology anticipates potential hazards, ensuring you stay vigilant, secure, and confidently in control throughout your journey.

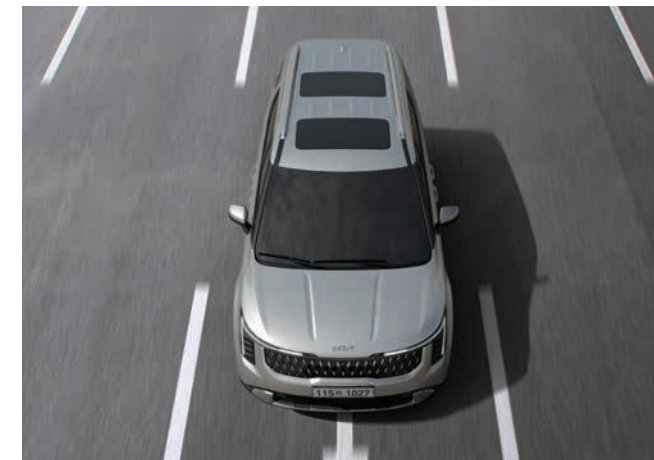

Forward Collision-Avoidance Assist 2 (FCA 2) monitors your surroundings and warns you if it detects a risk of collision with a vehicle, pedestrian or cyclist ahead. If the risk persists, FCA 2 automatically assists with emergency braking. FCA also assists with emergency braking if it senses a risk of collision with oncoming vehicles while turning left at an intersection, or with vehicles approaching from left or right. When changing lanes, automatic avoidance steering assistance is activated if there is a risk of collision with an oncoming vehicle in the next lane, a cyclist or pedestrian in the intended path, or an approaching rear-side vehicle.

Rear Cross-Traffic Collision-Avoidance Assist (RCCA) detects the presence of cross traffic, from the right or left, in the lane the Carnival Hybrid is backing into. If a vehicle is detected, and audible and visual warnings go unheeded, emergency braking is applied automatically.

Surround View Monitor (SVM) displays a variety of views of the situation around the vehicle for safe parking. When maneuvering in confined spaces, multiple cameras provide a zoomable, 360° overhead view around the vehicle, enabling confident steering and parking.

Lane Following Assist (LFA) helps you stay in the center of your lane. LFA identifies the lane's boundaries using the front view camera. If it senses that you're drifting out of the lane, it automatically steers the vehicle to keep it centered between the lines.

Sometimes the best destination is
the journey itself.

Embark on group adventures with ease. Leveraging decades of technological expertise, the Carnival Hybrid enhances the ride for all, accommodating those who require assistance, energetic children, and individuals seeking relaxation. In a world of unity, the Carnival Hybrid stands as a vehicle for inclusivity.

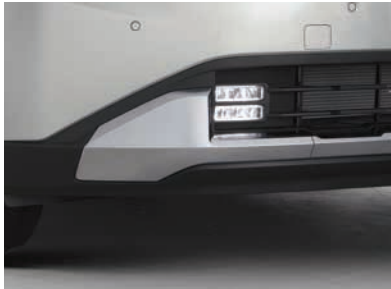

Features
