

Movement that inspires

At Kia, we believe movement inspires ideas. Great ideas come to you when you're on the move. Whether you're walking, traveling on a train or driving. It's why we create the spaces and the time you need to bring ideas to life.

Movement that inspires

The new Sorento Hybrid

Loaded with natural intelligence.
The new Sorento Hybrid.

The Sorento Hybrid arrives with bold, dynamic contours, and provides you with a more engaging and thoughtful way to move through the world.

Even tougher underneath.

The striking design cues carry through to the rear. Vertically oriented tail lamps at each side give the Sorento Hybrid a more formidable presence, especially in the dark. Its practical and agile demeanor is punctuated by black cladding and wide skid plate.

A more personal space.

Sleek horizontal lines. Integrated displays. New instrument graphics. Intuitive controls are optimally placed for easy reach to minimize distractions. It's an open space with clean, flowing forms for you to stretch and collect your thoughts.

It's all about perspective.

Technology sometimes does more for us when we're barely aware of it. The Sorento Hybrid's horizontally-oriented driver interface organizes more functions in a tastefully contained, easy-to-understand way. The look is simple, but the brainpower runs deep.

Integrated Display (12.3" Digital Driver Cluster + 12.3" Touchscreen Infotainment)

The integrated curved display is not only beautiful but offers a truly immersive driver experience. Its wide and expansive design provides clear, unobstructed visibility.

Integrated Memory System (Driver Only)

Drivers can easily adjust and store their mirror and seat preferences with our Integrated Memory System, designed to enhance comfort and convenience.

12-Speaker Bose® Premium Sound System (SX Tech Pack only)

Experience the full potential of your drive with rich, spacious sound. Each speaker is meticulously crafted to deliver peak performance and exceptional clarity.

Infotainment / Climate Switchable Controller

Switch the functions of the same set of controls between the climate and infotainment systems with a simple press of a button.

We all need some space.

With comfortable and supportive seating for up to seven, the Sorento Hybrid sets a new standard for people-friendly use of space. Roominess, brightness, and practicality enrich every journey.

Wireless Charging Pad

The rubber-lined, wireless charging pad in the center console can quickly charge compatible smartphones.

From the texture and finish of its materials to the well-positioned and durable seats and fixtures, the Sorento Hybrid elevates the experience of travel. Beauty is not just outside those big windows. It's all around you.

**1st Row Relaxation
Comfort Seats**

While in Park mode, the driver and front passenger's Relaxation Comfort Seats recline to offer a zero-gravity experience, complete with leg support.

More accommodating than ever before.

The Sorento Hybrid is ready for you even before you get inside. Seats move for easier ingress, and the tailgate automatically open as you get closer. It's all about making life simpler and more efficient.

Smart Power Tailgate (including Auto Close)

Simply stand behind the vehicle for three seconds with the smart key in your possession, and the tailgate will open automatically. You can even set the opening height to fit your preference.

2nd Row One-touch Walk-in System

Effortless access to the third row with just a single touch. Elevate your drive with seamless functionality and enhanced versatility.

Ergonomic Driver's Seat

A system of air pockets means substantial support and comfort in a slim profile.

Passenger Walk-in Device

With the press of a button on the inner side of the front passenger seat, the driver can temporarily move the seat forward and fold the seatback to allow rear passengers in and out more easily.

Powerful. Agile. Efficient.

With proven powerplants and precisely matched transmissions, the Sorento Hybrid rises to the challenges of the road. Braking is controlled and firm, and new bushings and frequency-sensitive dampers make for a silky-smooth ride. Now more than ever, performance is about not only fulfilling your intentions, but exceeding your expectations.

Prepared for any situation.

From the moment you start out to the time you park, the Sorento Hybrid is watching over you. Sensors and Advanced Driver Assistance System (ADAS) technology are working to anticipate and avoid risks and threats with masterful dynamic support — on the open road or as you ease into a parking spot.

Reverse Parking Collision-Avoidance Assist (PCA)

Provides a warning if there is a risk of collision with a rear object while reversing. It automatically assists with emergency braking if the risk of collision increases after the warning.

10-inch Head-up Display (SX Tech Pack only)

Vital driving information is projected onto the lower part of the windshield so you can stay safely focused on the road.

Surround View Monitor (SVM) displays a variety of views of the situation around the vehicle for safe parking.

Lane Following Assist (LFA) helps you center the vehicle in the lane while driving by using the integrated camera to help guide the steering based on lane markings or the car ahead.

In a state of constant vigilance.

Observing, sensing, and waiting to step in to help you avoid trouble, the latest ADAS technologies help keep you alert, safe and in control.

This means keeping you at a safe distance from other vehicles and pedestrians, and even responding to unexpected situations in real time.

Smart Cruise Control (SCC, depicted above) helps you maintain a safe distance from the vehicle ahead at the speed you set. If the vehicle ahead stops abruptly, the Sorento Hybrid automatically stops and then resumes acceleration.

Blind-Spot Collision-Avoidance Assist (BCA)
It warns you if there is a risk of collision with a rear-side vehicle in the blind-spot while changing lanes. When forward exiting a parallel-parking spot, it automatically assists with emergency braking if a risk of collision with a vehicle approaching from behind is detected.

See things through new eyes. The new Sorento Hybrid.

More than just a striking new presence on the road, the Sorento Hybrid offers a new way of appreciating the beauty of the world passing by. A driving experience that keeps you more engaged, relaxed, and in harmony with everyone and everything around you.

Cycle & Carriage Aftersales Service keeps your car in its prime.

We care for you the same way we care for our family. Experience the Cycle & Carriage Kia Service spirit as we welcome you at our Kia Authorised Service Centres.

With more than a century in the automotive industry, we can assure you that you will enjoy the most comprehensive customer support and exceptional service experience by well-trained professionals, using state-of-the-art technologies, diagnostic tools and genuine parts to keep your Kia vehicle running in peak condition. All Kia genuine parts come with 2 years or 40,000km (whichever comes first) warranty.

This is our commitment to you.

Industry-leading warranty.

We are confident of the quality and durability of every Kia vehicle, having undergone stringent pre-delivery processes and checks before being delivered in pristine condition. We are so confident that your new Kia car will enjoy a 5-year unlimited mileage warranty and a 10-year engine warranty.

From the date of registration, your new Kia car is covered against defects in materials and workmanship for a period of 5 years of factory unlimited mileage.

On top of that, your Kia car will come with a 10-year engine warranty, subject to a maximum mileage of 200,000km or 10 years, whichever is earlier. This engine warranty from Cycle & Carriage will take effect immediately after the expiry of the manufacturer's.
