The new K8

The luxurious design and new technology of the K8
create splendid moments in our daily lives.

K8 makes you shine.

The Priceless The new K8

3.5 Gasoline _ Ivory Silver (ISG) / Specifications above may vary by trim level, engine and options.

3.5 Gasoline _ Sunset Beige (BYG)

Exterior

The K8's lateral image with complete proportionality, dynamic wheel design, and voluminous rear style all contribute to its unique and futuristic appearance.

3.5 Gasoline _ Interstellar Gray (AGT)

K8 Signature Black

A rich depth of interior and exterior colors, along with the sophisticated emblem and garnish unique to K8 signature black edition, and black wheels, create a totally new sense of luxuriousness.

Deep Sea Navy Two-Tone Interior / Specifications above may vary by trim level, engine and options.

Interior

An elegant aesthetic quality, inspired by a motif of simple yet voluminous sculpted sides, is complemented by dynamic ambient lighting along horizontal lines. This combination creates a sense of spaciousness.

Dynamic Ambient Light

The use of ambient light dynamically expresses various patterns in three dimensions.

High Technology

The K8 prioritizes user comfort and safety through its cutting-edge connectivity technology and advanced convenience features. These enhancements ensure a seamless experience from the moment driving begins until the journey concludes.

Panoramic Curved Display

Integrating the 12.3-inch cluster and infotainment screens into a panoramic curved display achieves both convenience and luxury.

Wireless Software Update

When a new software update is available, the system asks for user authorization when the vehicle is parked and powered down, and then starts the wireless software update.

- ※ The screen image of the infotainment system may change with updates.
- ※ The screen above is only for illustration purposes, and may be different from actual operating conditions.

Head-Up Display

Projects a dimensional graphic and various driving information on a windshield glass, helping minimize the moving gaze of a driver, leading to driving safety.

Fingerprint Authentication System

Performs authentication necessary for simplified payment, release of valet mode, and enables engine start and run, along with Kia CarPlay.

Kia Digital Key 2

Without a smart key, users can lock and unlock door and start the engine with an iPhone, Apple Watch or Android smartphone, and this function can be shared with up to 15 devices.

- ※ Refer to the official Kia Connect website for supported devices.
- ※ Currently, only Apple Watch offers this feature.

Built-In Cam 2

The high-resolution front and rear cameras ensure excellent daytime/nighttime image quality, and the system is also capable of voice recording, high-capacity external memory support, OTA, and drive information recording/playback (interlink with map, etc.).

The Kia Connect app allows you to share parking impact detection recordings and check the real-time built-in cam status information.

Augmented Reality Navigation

Provides real-time driving information directly on the screen, showing your current position and the direction to follow. This intuitive display enhances navigation for drivers, provides information related to your destination, and features like smart cruise control.

3.5 Gasoline _ Sunset Beige (BYG)

Dynamic Welcome/Escort Lighting

Headlamps, positioning lamps, and rear combination lamps dynamically turn on/off.
The welcome lights feature three rhythmical patterns, creating illumination that is both engaging and stylish.

Convenience

Welcome lights greet the driver with a dynamic graphic action, while the luxurious seats and conveniences complete the comfort and convenience focused on the front seats.

Ergo-Motion Seat for the Driver

The ergonomic features and powered functions respond to driving mode and vehicle speed to provide the utmost in improved posture and motion functionality for maximum comfort and alertness.

Front Relaxation Comfort Seat

The relaxation seat can be fitted to the driver's and front passenger's seats, allowing users to rest comfortably in a weightless position.

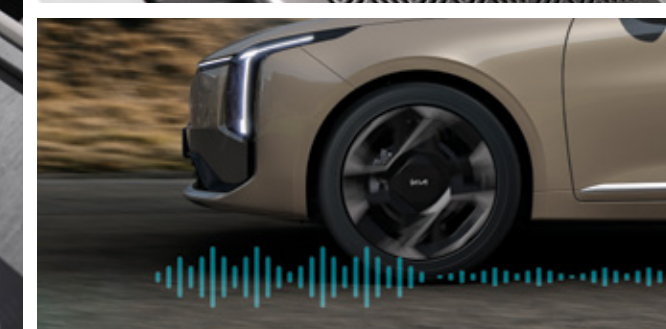

Double-Door Armrest Console (including heated and UV disinfection)

The UV disinfection system within the console ensures a clean interior environment. The armrest console is connected to the seat heating system to provide users with a novel and comfortable experience.

Smartphone Wireless Charging System (Dual)

Allows fast wireless charging of up to two smartphones simultaneously.

Meridian Premium Sound

The Meridian Premium Sound System, a renowned high-end audio brand worldwide, delivers a luxurious three-dimensional sound experience within the car. Its unique digital algorithm adjusts for acoustic corrections based on changes in car speed, allowing users to customize their listening experience with various patterns.

Active Road Noise Control*

Reduces road noise inside the car by emitting a sound that offsets the noise to increase interior quietness.

Intelligent Headlamp (IFS)

Ensures a clear view for the driver by using high beams and blocking light from oncoming vehicles to prevent glare. This functionality extends to preceding cars as well, ensuring a clear view for the driver without requiring a separate headlamp operation, making nighttime driving easier.

* A virtual image was used to help the viewer understand. / Specifications above may vary by trim level, engine and options.

2.5 Gasoline

198 maximum output PS / 6,100rpm
 25.3 maximum torque kgf·m / 4,000rpm
 12.0 combined fuel economy km/ℓ (17인치 타이어)

3.5 Gasoline

300 maximum output PS / 6,400rpm
 36.6 maximum torque kgf·m / 5,000rpm
 10.1 combined fuel economy km/ℓ (2WD 18" tire)

Driving

The K8 suspension delivers driving comfort across various road conditions, along with advanced convenience specifications that enhance driving stability. This ensures a uniquely smooth driving experience.

Preview Electronic Control Suspension*

Anticipates road conditions ahead using the front camera and navigation system, and then adjusts the suspension control to match the detected road conditions, providing optimal driving comfort.

AWD*

Adaptively adjusts the power distribution between the front and rear wheels based on road conditions and the car's driving mode. This ensures driving stability on snowy, muddy, slippery, or rugged roads, as well as during acceleration and turns.

Steering Wheel Grip Detection (HoD)

The capacitive touch sensor can detect the electrical characteristics of the driver's hands placed on the steering wheel to determine whether the driver is holding the wheel for more comfortable driving.

* A virtual image was used to help the viewer understand. / Specifications above may vary by trim level, engine and options.

ADAS

Kia's advanced driver assistance system enhances driving convenience and safety for K8 owners by providing detailed assistance in various driving and parking situations.

Highway Driving Assist 2 (including Lane Change Assist)

Maintains a safe distance from the vehicle in front on motorways and highways, and maintains the speed set by the driver while keeping the car in the center of the lane, even on curved roads.

It moves the vehicle to the other side of the lane if it gets too close to the vehicle driving in the next lane.

If the turn signal is activated in the direction of the desired change while the steering wheel is held and the vehicle is driven above a certain speed, the vehicle automatically changes lanes.

Lane Keeping Assist 2

Ensures that the car stays centered within the lane by using a steering angle control method, providing better lane keeping assist performance compared to the first-generation torque control method.

Forward Collision Avoidance Assist

Monitors the surroundings while driving, warns if there is a risk of a collision, and automatically assists braking if the vehicle in front suddenly slows down after the warning, or if there is an increased risk of a collision with a car, pedestrian or cyclist ahead.

Blind-Spot Collision-Avoidance Assist

If the system detects a risk of collision with a vehicle approaching on the side when the turn signal is activated for a lane change, it generates an alarm. If the system detects a risk of collision when exiting a parallel parking space, it automatically assists with braking.

Rear Cross-Traffic Collision-Avoidance Assist

Provides warnings when the risk of collision with oncoming cars from the left and right is detected while backing up. If the risk of a collision remains high after the warning, your car will automatically intervene with braking assistance.

Remote Smart Parking Assist

The driver can move the car forwards or backwards remotely from outside using the Smart Key.

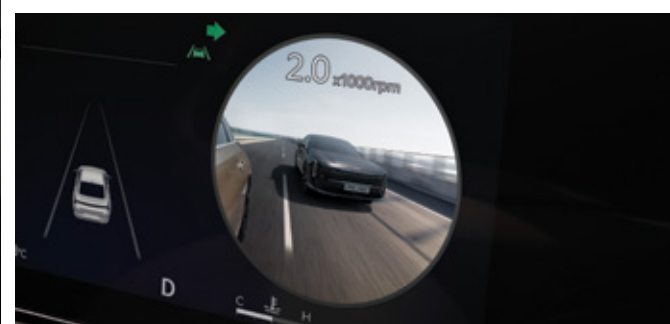

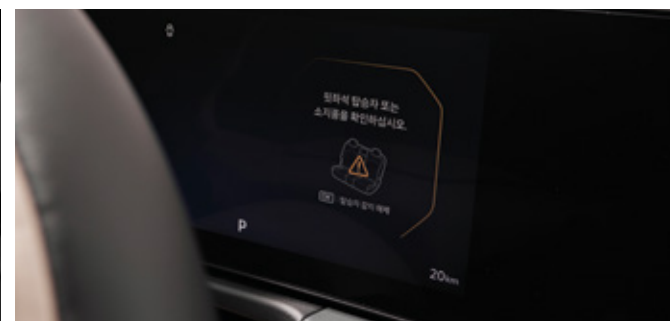

Safety

The advanced convenience specifications in the K8 enhance safety during lane changes while driving, or backing into a parking space, and when passengers in the rear seats are getting in or out of the car.

10-Airbag System*

Includes center and side airbags for the front seats, as well as advanced rear side airbags and curtain airbags to provide protection for all passengers in case of an accident.

Rear Occupant Alert

On-board radar sensors detect if an occupant remains in the rear seat when the rear door is opened, and alerts the driver via a warning message on the cluster, an audible alarm, and even a Kia Connect text message, ensuring the driver is aware of the situation.

Blind-Spot Monitor

When a turn signal is activated, the display shows the rear and side view of the selected direction.

Safe Exit Assist

When a passenger opens a door after the vehicle has stopped, a warning is issued if a risk is detected from the rear or sides. In addition, the electronic child safety lock remains engaged to prevent doors from being opened unintentionally.

Rear Guide Lamp

Backup LED white lights are projected onto the road behind the car when backing up, helping pedestrians and nearby vehicles recognize that the car is in reverse.

Rear Seat Belt Buckle Light

The illuminated seat belt buckles make it easy to see if they're fastened.

* A virtual image was used to help the viewer understand. / Specifications above may vary by trim level, engine and options.

K8 hybrid

18.1 combined fuel economy km/l (17" tire)
 180 engine max. output ps / 5,500rpm
 27.0 engine max. torque kgf-m / 1,500~4,500rpm
 47.7 motor max. output kw
 264 motor max. torque Nm

1.6 Hybrid _ Moonscape Matte Gray (KLM) / Specifications above may vary by trim level, engine and options.

Contents Exclusively for Hybrid Models

Contents for hybrid models provide various information related to driving, fuel economy, and energy flows, which assist hybrid drivers in optimizing their driving experience.

E-Ride

Controls the motor when passing over speed bumps, which ensures that a vehicle exerts inertial force opposite to its moving direction, contributing to driving comfort.

E-Handling

When turning the vehicle, such as during lane changes or cornering, agility and stability are improved in starting and exiting a turn by accelerating/decelerating the drive motor, improving overall driving performance.

Kia Connect

Kia Connect is Kia's connected car service for wireless navigation updates, smartphone-based remote vehicle control, and emergency alerts for a safer and more convenient vehicle usage experience.

Remote Control

Users can remotely control various functions in the vehicle using smartphone apps.

Safety and Security

Emergency assistance through the Kia Connect center in the event of an airbag deployment or roadside emergency (24/7, 365 days)

Vehicle Maintenance

Vehicle maintenance services including diagnosis of breakdowns, driving information, and wireless updates.

Navigation

Optimal route guidance using real-time traffic information.

Streaming Service

Use streaming services inside the vehicle without connecting a smartphone.

※ Complimentary 5 years of service upon initial enrollment with the purchase of a vehicle followed by 5 additional years of light service (SOS emergency dispatch, automatic notification of airbag deployment, monthly reports, traffic information)

※ A link to a streaming service subscription is required to use Kia Connect's streaming service. ※ The features/range of Kia Connect remote control may vary depending on trims and options.

※ For more information, visit Kia Connect's KakaoTalk customer service center (search "Kia Connect" through the KakaoTalk search window and add as a friend).

※ If your streaming service subscription only supports mobile devices, it will not be compatible with Kia Connect's streaming service.
